

Belmont Medical Associates has upgraded our availability and patient safety in response to the current COVID-19/Corona Virus concerns and CDC Recommendations.

Patients concerned about entering or traveling to our office have the following options:

1. Schedule an appointment by phone or patient portal and a provider will see you in your vehicle.
2. Schedule an appointment and visit using Telehealth from your home or computer or mobile device.

To use Telehealth (free service) schedule your appointment and you will be given a URL / room code to use with doxy.me, log onto doxy.me and follow instructions under “I am a patient”.

3. We remain staffed fully here for walk-ins and appointments with increased sanitization in place with in car evaluations available.
